Atutem tego palnika jest możliwość regulacji ilości podawanego gazu, jak również dostarczanego do dyszy powietrza. Dzięki temu otrzymujemy różne rodzaje płomienia. Łatwo nabić palnik gazem np. do zapalniczki.

#### Dane techniczne:

- Wysokość palnika: **16 cm**
- Temperatura płomienia: **1300 stopni**
- Długość płomienia: około **5,5 cm**
- Pojemność: **10g**

**High Quality:** Built to last ignition, our professional cooking torch lighter is easy to start up and produce flame quickly. Made from high quality metal materials and a locking mechanism assures your worry-free operation and a long durability.  
**Customizable Flame Temperature:** To ensure in the perfect torch of a variety of cooking or baking projects, the adjustable flame regulator is sensitive enough to allow you to adjust it for the ideal temperature.  
**Safety First:** Our blue torch, compact and smart, is equipped with a safety lock by which you can lock the ignition and keep continuous flame burning; the cooking torch, easy to control, allows you to change the intensity of the flame to fit all needs.  
**Simple Refilling:** This butane torch is portable to carry and refill butane gas. Turn the torch upside down then fit, it will flow when the burner is lit.  
**Versatile Tool:** Ideal tool to caramelize sugar atop creme brulee, glazing a baked ham, searing a steak, roasting bell peppers, melting cheese and toasting bread crumbs. Also useful for lighting your fireplace, candles or cigars, for craft projects, jewelry making, welding, for multiple camping applications, and much more.
